How to use Bevi Touchless dispensing

On July 13th, you'll be able to use your Bevi machine directly from your phone. This feature will be available for both new and existing machines.

How to Enable Touchless Dispensing:

Go to the Ingredients page using the Bevi Touchscreen.

Slide the Touchless toggle switch to the right, and your machine is now enabled.

How to Use Touchless Dispensing:

Scan QR code on the Bevi touchscreen with your phone's camera or QR reader app.

Open link that appears on your phone's screen.

Dispense your drink as you would using the Bevi touchscreen.

Exit from the website and enjoy!

**Quench Customer Care is available via phone at 888-554-2782
Monday- Friday, 8 a.m. - 8 p.m. ET.**
