- Cold, ambient, and hot filtered water
- Chilled sparkling water
- Touchless dispenser with sensor-activation
- Ice bank cooling technology to keep up with demand
- Modern, sophisticated design with glass front panel and temperature-indicating dispenser lights

Specifications

Product Details

Level up your workplace hydration with sparkling water with the 533! A sleek and stylish sparkling water dispenser, the 533 offers cold, ambient, and hot filtered water as well as chilled sparkling through innovative touchless dispensing with temperature-indicating dispenser lights. The 533 features state-of-the-art hygiene technology, including touchless sensor-activated dispensing, antimicrobial surface protection, and glass front panel. The 533 uses ice bank cooling technology to provide a high volume of filtered still and sparkling water, perfect for office kitchens, executive areas, and waiting rooms. The 533 is available as a freestanding machine as well as a space-saving countertop model.

Sparkling Water Headline Here

- Cold, ambient, hot, and chilled sparkling water on-demand
- Ice bank cooling technology
- Hygienic touchless dispensing with temperature indicator lights
- Splash-less water flow
- Antimicrobial surface protection to maintain surface cleanliness
- Large 11" dispensing area and drip tray Self-diagnostic indicator for low CO₂
- Available as a freestanding or countertop model

All sparkling water dispensers require CO₂ cylinders. If connecting to a bulk or existing CO₂ system, a CO₂ line terminating at a ¼" barbed shutoff valve must be available at the installation site.

A 533 Freestanding
