Tower 70

The Vero Water Tower 70 is a filtered still and sparkling water system that produces 180 liters of chilled still or sparkling water in an hour* – perfect for restaurants, hotels, and bars. The Vero Water Tower 70 uses EPA recommended R290 refrigerant, which is natural, non-toxic, and free of ozone-depleting properties, because it is one of the most climate-friendly refrigerants available. The Vero Water Tower 70's 11" dispense height with drip tray, rapid chilling, and manual portion control makes bottle-filling with Vero's exclusive reusable glass bottles an easy task for any staff or guest. Install the Vero Water Tower 70 to transfer your guests' hydration experience!
