HydroTap Celsius Plus All-in-One (AIO)

Boiling/Chilled/Sparkling (BCS) 120V Product Spec Sheet

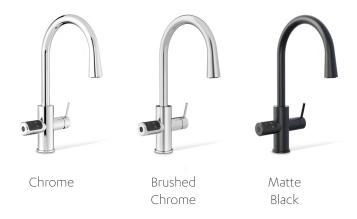

HydroTap Celsius Plus All-in-One (AIO)

Form meets function with the HydroTap Celsius Plus All-in-One (AIO). Intended for installation over a sink in the kitchen or wet bar, the Celsius Plus AIO instantly dispenses filtered boiling, chilled and sparkling water, plus unfiltered hot & cold water. And it's all wrapped up in Zip Water's enduringly stylish design.

So whether you are looking to upgrade your home hydration or you want the convenience of cooking made easy, the HydroTap Celsius Plus AIO is the perfect tap to meet your needs. The Celsius Plus AIO is available in six luxury finishes from our classic chrome to our stylish brushed gold and gunmetal to complement any kitchen or wet bar.

HydroTap 120V BCS G5 Command Center

Product Spec Sheet

Installation Requirements

Installation and connection of your HydroTap must be carried out by a qualified person, observing all local, state, & federal regulations. You will require suitable 110 -120V 50-60Hz, 15 amp power supply with a NEMA 5-15 electrical outlet within 5′ 9″ (1.75m) of the product.

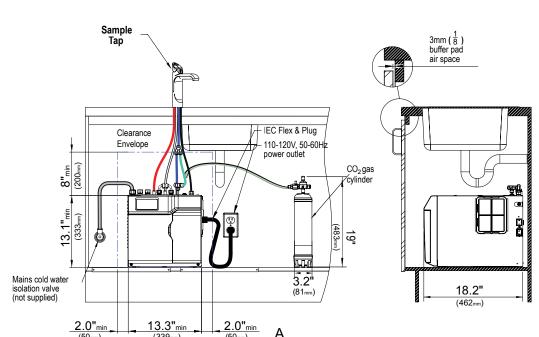

The HydroTap is a pump-driven system so the installation of the Tap must be within 3' (0.9m) of the base command center. The HydroTap is an air-cooled system so discrete cabinetry cut-outs are required for ventilation. Installation on most countertops is straightforward however, some stone countertops may require a specialized cutting service.

If using a drip tray (font) accessory, suitable drainage to a trapped waste is required within 3′ (0.9m) of the installation. If you live in an area with hard water (more than 150ppm), we recommend installation of a scale filtration kit or a water softener. Sufficient space and clearance to install the HydroTap as detailed in the product installation guidelines is required.
