

Support Customers with Advanced Hydration Solutions

Retail stores from inlines and boutiques to anchors and big box stores are unique places with specific needs for both customers and staff. Culligan Quench's broad line of bottleless water coolers, sparkling and flavored water dispensers, and coffee machines ensure that your storefront or backroom has hydration solutions tailored to meet the individual requirements of your retail space.

Culligan Quench also offers mineral-infused and electrolyte enhanced filtered drinking water on-demand with quenchWATER+, which offers a unique drinking water experience for customers and is shown to more effectively hydrate busy staff.

Switching to bottleless water coolers is an instant win for your store's sustainability efforts. By ditching single-use water cooler jugs, your store will help save on plastic consumption, while also saving money. On average, most Culligan Quench retail customers save up to 80% from switching to a bottleless water cooler system!

Filtered water

Touchless filtered water coolers for thirsty shoppers.

Sparkling & Flavored Water

Sparkling water machines with added flavored water for enhanced shopping experience.

Ice

Reliable water and ice dispensers for stock rooms or staff receiving areas.

Coffee

Single-cup fresh coffee and tea for busy staff and buzzing visitors.

Retail's Most Trusted Filtered Water Provider

Culligan Quench is the leading water-as-a-service solution provider to thousands of retail stores coast-to-coast. Retail customers choose Culligan Quench as their preferred partner because of our dedication to hydration solutions, including point-of-use water coolers, sparkling water dispensers, ice machines, and a diverse range of coffee machines. From the very beginning of our relationship, Culligan Quench works relentlessly to ensure that we understand the requirements your store, customers, and staff need. Plus, our bottleless water coolers allow for the continuation of any sustainability initiatives, while also saving money.

Diverse Selection for Unique Retail Needs

A refreshing supply of filtered water, sparkling and flavored water, chewable ice and premium coffee is essential to the shopping experience of your customers and the perks for your staff.

- ✓ Boutiques
- ✓ Inline Tenants
- ✓ Anchors
- ✓ Box Stores

It is a night and day difference; [the water] just tastes so pure. Also, the Culligan Quench technicians are so professional, neat, and polite – truly a differentiator.

Tamar Moloney,
Facilities Coordinator, Road Runner Sports.
