

Promote Health and Wellness with Spa and Salon Solutions

Spas, salons, barbershops, beauty shops, and everything in between are places where health, beauty, and wellness are the top priority. These businesses need the amenities that allow their clients to feel like the best version of themselves – and staying hydrated and equipped for specialty salons or spa services is a crucial part of that. With Culligan Quench’s diverse range of machines that offer mineral-infused and electrolyte enhanced filtered drinking water on-demand, your spa or salon can help your business promote the highest form of self-care for your patrons.

- Replenish and rehydrate after massages with Culligan Quench’s on-demand filtered water and chewable ice.
- Unwind with choices of sparkling water dispensers with or without added flavor.
- Recharge with freshly brewed tea or coffee with Culligan Quench’s coffee brewers.

Some services require deionized water for efficacy or sanitization. Culligan Quench’s deionization system offers the ultimate water purification process for things like steam sterilizers and rinsing agents. No matter what kind of water, sparkling water, ice, or coffee your business needs, Culligan Quench has it covered.

Filtered water

Touchless filtered water to properly rehydrate spa goers and busy salon staff.

Sparkling & Flavored Water

Sparkling water with or without added flavor to allow clients to fully relax.

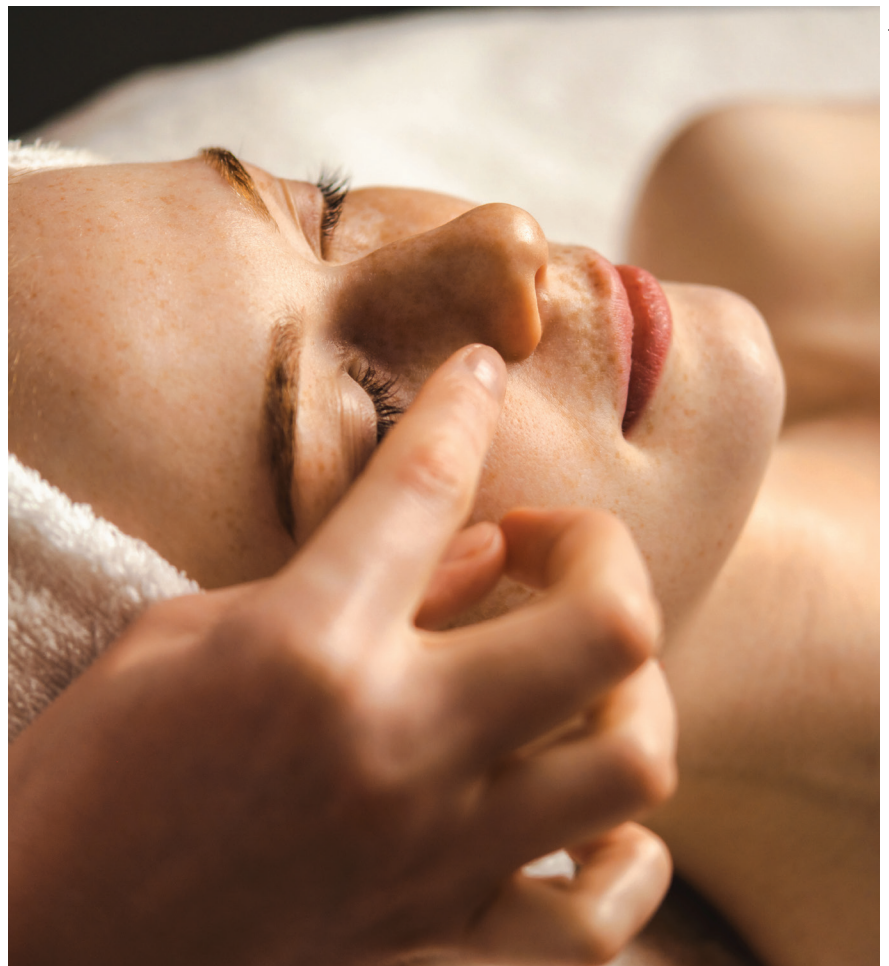

Ice

Large capacity ice machines to accommodate specialty spa treatments such as cryotherapy.

Coffee

Single-cup fresh coffee and tea for busy staff and buzzing visitors.

Spas & Salons Most Trusted Filtered Water Provider

Culligan Quench is the leading water-as-a-service solution provider to thousands of spas & salons coast-to-coast. Spas & salons customers choose Culligan Quench as their preferred partner because of our dedication to hydration solutions, including point-of-use water coolers, sparkling water dispensers, ice machines, and a diverse range of coffee machines. From the very beginning of our relationship, Culligan Quench goes the extra mile to ensure that we understand the requirements of your spa or salon, your patrons, and your staff need. Plus, our bottleless water coolers can save you money, while also boosting your sustainability efforts.
