

1010

Air-Cooled Ice Bagger

- Efficient air-cooled ice bagger with self-contained stainless steel design
- Produces up to 721 lbs of crescent ice cubes in 24 hours*
- Ice storage up to 650 lbs
- Designed to conserve water and energy
- Hands-free dispensing with foot pedal
- Innovative alert system to monitor performance Easy one-button, one-hour cleaning cycle
- Optional ice shoot dispensing or cooler stand

Product Details

The 1010 is designed to meet the high demands of commercial environments with ease and efficiency, offering reliable performance and user-friendly features. Its touchless foot pedal dispensing provides a hygienic, hands-free solution for quick and efficient ice dispensing, making it ideal for filling coolers or bagging your own ice. Built with an energy- and water-saving CycleSaver design and an EverCheck™ alert system, it ensures operational efficiency while promptly notifying users of any issues. Constructed with durable stainless steel to resist dirt and fingerprints, the 1010 produces up to 30 lbs of crescent ice per hour and stores up to 650 lbs*, delivering optimal efficiency with a straightforward setup, as it operates entirely within the machine.

1010 Features:

- Produces up to 30 lbs/hr * of crescent-shaped ice with storage for up to 650 lbs+
- Touchless foot pedal dispensing for easy dispensing into coolers or ice bags
- Features CycleSaver design for energy and water saving while prolonging the optimum performance of the machine
- Features EverCheck™ alert system provided to monitor performance and promptly alert users to any issues
- Stainless steel exterior to resist dirt and fingerprints and easy one-button, one-hour internal cleaning cycle
- R-404A refrigerant ensures consistent ice production in commercial environments
- Air-cooled system delivers efficiency with a simple, self-contained design operating entirely within the machine
- Alternative storage option available as a 700 lb capacity scoopable bin (1015) for locations with standard ceiling heights <10 ft

Culligan Quench products are certified by independent authorized 3rd party laboratories in accordance of appropriate industry standards. To find out more about which certification your product may have, please contact us.

Specifications

	1010	1015
Ice Type	Crescent	Crescent
Dimensions	104"h x 34.25" w x 46" d / 265 cm h x 87 cm w x 117 cm d	72"h x 44" w x 32.5" d / 183 cm h x 112 cm w x 82.6 cm d
Dispensing Area	17"	N/A
Dispensing Type	Bagger	Scoop Bin
Weight	700 lbs / 317.5 kg	375 lbs / 170 kg
Ice Production per 24 hrs*	721 lbs	721 lbs
Ice Storage Capacity	650 lbs	700 lbs
Recommended Water Pressure	10 – 113 psig	10 – 113 psi
Electrical Requirements**	(1) 115V/60/1 standard outlet, (1) 115V/60/1 NEMA 5-20R w/ 20A dedicated circuit	(1) 115V/60/1 standard outlet, (1) 115V/60/1 NEMA 5-20R w/ 20A dedicated circuit
Icemaker/Bagger Storage Amperage	14.3A / 10.8	14.3A / 10.8
Power Consumption†	4.75 kWh	4.75 kWh
Drain Requirement	Install is required to be within 10 ft of drain	
Clearance Requirement	Allow 24" / 61 cm at sides & top. Allow 12" / 30.5 cm at rear.	
Model Number	1010	1015

*Ice production can change based on source water and ambient air temperature. The specifications lists are for 70° F air and 50° F water source temperature. Culligan Quench recommends that installation location ambient air temperature averages 45 - 90° F and water source temperature averages 45 - 80° F.

**If drain pump is required, (1) additional 115V/60/1 standard outlet will be required.

†Per 100 lbs of ice in 90° F air temperature/70° F source water
